

Architectural & Engineering Technology Program

Build Your Future at TRU

After completing the ARET Technologist Diploma,
get a degree in one more year at TRU.

Are you prepared for an exciting, high paying career?

The ARET program emphasizes the building technologies through student involvement in design projects incorporating building structures, and the building environmental systems including electrical, lighting, plumbing, heating, ventilation, and air-conditioning. In addition, students produce project designs incorporating residential subdivisions and municipal services.

- **ARET 2 Year Technician Diploma**
- **ARET 3 Year Technologist Diploma**

Starting September 2015

**Anticipated Sept 2015 intake contingent on final Ministry approval*

Bachelor Building Science Degree
